

## A Visit to CHS after 50 Years!

It seems like yesterday we all graduated. I had the opportunity to revisit the old homestead a few years back during our 50th reunion. It was remarkable how many things remained the same, but really how different it was. As I walked the halls, looking at the lockers and the wonderful renderings on the second floor depicting the various industries we grew up with, it tugged at my heart strings. The auditorium was always intimidating to me and even now, it felt somewhat the same way. And, I could never figure out what those things under the seats were all about!!!

Enjoy the trip as we all did..... Go Railroaders. For the video [CLICK HERE](#).
